NO TO WAR..

G8 The Summit NO TO MILITARISM

PROTEST AGAINST THE WORLD'S REAL TERRORISTS .. THE G8

Join the Irish Anti-War Movement Contingent in Evian

It's vital that anti war activists from throughout Europe turn out in force at the G8 summit in Evian to register our opposition to the ongoing occupation of Iraq and the attacks on civil liberties being carried out under the 'war on terrorism'.

Bush, Blair and Berlusconi will seek to strut around as liberators while daily we get news of Iraqis protesting against the US presence being shot at. Putin and Chirac will present themselves as voices for peace but we shouldn't forget their ongoing colonial wars in Chechnya and Sierra Leone.

The G8 leaders pose themselves as the representatives of the most advanced and powerful civilizations and yet collectively they waste countless billions on the latest war machinery while standing over the grinding global poverty and oppression that gives rise to conflict.

The slogan of the anti globalisation movement that "another world is possible" should resonate with every anti war activist. The demonstrations that will take place as well as the counter summit will be a golden opportunity for anti war activists to contribute to the debates along with trade unionists, environmentalists and other activists that will take place about what kind of world we need and how we struggle for it.

Book your place in the Irish contingent now by contacting 086 1523542.
